## Enerquip to attend INTERPHEX 2018 in NYC

We cannot wait to head to New York City tomorrow for #Interphex 2018, one of the most important events in the pharmaceutical, medical device and biotech space. Come meet our team at booth #1767!

[Click here to learn what we're most excited to see at INTERPHEX 2018](#)

## Get off-the-shelf exchangers with lead-times that are half of the industry average.

From 100% 304 stainless steel construction for corrosion resistance and cleanliness to being built to high quality TEMA C guidelines, ASME hydro-tested and code stamped, the features of our off-the-shelf sanitary heat exchangers are why top producers of food, beverage and dairy products put their faith in Enerquip.

[Click here to learn more about our off-the-shelf heat exchangers, available to be shipped in days instead of months.](#)

## Freezing fouling in shell and tube heat exchangers: What

## you need to know

Although freezing fouling is relatively less common, it could be potentially very damaging to your heat exchanger.

[Click here to learn the steps you need to take to prevent or respond to this type of fouling](#)
