Introducing our New Product Line - Compact Heat Exchangers

These space-saving, easy-to-clean exchangers are an efficient solution for product flow rates from 1 to 10 gallons per minute.

[Click here to learn why these new compact heat exchangers are perfect for small batch processes, point-of-use streams, R&D and more](#)

**Find out why New Glarus Brewing Company invests in our
heat exchangers for pasteurization and energy-recovery**

[New Glarus Brewing Company](#), a leading producer of world-class, handcrafted beer in Wisconsin, experienced "nothing but success" when investing in our team and heat exchanger solutions. Hear from their very own Project and Engineering team on how we helped improve the efficiency of their brewing process. [Watch the video testimonial here](#)

Enerquip had a great time at Process Expo 2017

We had so much fun attending Process Expo last month in Chicago! If you didn't have a chance to attend, learn about our favorite moments with professionals from all corners of the food and beverage industry.
